Committed to developing the right training solution for your needs

Sage Pastel offers a range of product training solutions to ensure that you are proficient in the use of your accounting software, ERP software or business software.

Whether you are a professional and an already experienced Sage Pastel user or just a beginner, Sage Pastel's training solutions will assist you in contributing to your company's overall success, and you'll feel more confident while getting maximum use out of your accounting software.

All courses are designed to give students hands on, practical accounting software training in a classroom environment. Furthermore, training is provided through our Sage Pastel Authorised Training Centres (ATCs), with highly experienced trainers providing you with the knowledge and guidance you require during the course.

3 Ways to study

Full time at an ATC of your choice

Most school leavers choose this option. It is the fastest way to move into the job market.

E-learning

Complete your studies via the internet in your own time, in the comfort of your own home or office. (Limited courses)

Self-study from home

This is the most flexible and affordable route. You complete your studies at your own pace. (Limited courses)

Why attend Sage Pastel training?

Sage Pastel Accounting is accredited as a Quality Assurance Partner (QAP) with FASSET (Our accreditation number is QAP/585/008), the Seta for Finance, Accounting and Management Consulting as well as other Financial Services.

- Sage Pastel Accounting knowledge and experience is frequently demanded by employers
- Our Authorised Training Centres provide hands on, practical training in a classroom environment
- All certified trainers have an extensive understanding of Sage Pastel products and provide a high standard of training
- After completing the assessment you will receive a Sage Pastel competency certificate
- Many Sage Pastel customers do not make use of the feature-rich functionality in Sage Pastel products
- You'll be one step ahead of others when seeking employment in the accounting industry

Other Sage Pastel Accreditation Training Providers

The value of a Sage Pastel Certification

Obtaining a Sage Pastel certification should be a priority as it proves the following:

- A Sage Pastel certification is a globally accepted means of assessing an essential set of abilities
- When employees are confident using Sage Pastel, they will deliver a significant return on investment back to their employer
- A Sage Pastel certificate is evidence that an employee is competent enough to perform the tasks assigned to him/her
- Certification shows the determination and ability of an employee to complete a task
- A Sage Pastel certification allows employees to apply their skills immediately after completing accreditation training

Completing a Sage Pastel Assessment

To make it easier for you, all Sage Pastel assessments are ONLINE. This means:

- You can write your assessment in your own time
- You can write the assessment in the comfort of your own home (as long as you have a PC with internet access)
- Some of the Sage Pastel assessments are practical hands-on and are not online

Authorised Training Centres

Many Sage Pastel customers do not make use of the feature rich-functionality that the Sage Pastel product range offers. The scalable accounting software, invoicing software, ERP software and business software that Sage Pastel supplies.

Clients are not making full use of their accounting software solution. For this reason, the Sage Pastel Authorised Training Centre (ATC) Program has been created to play a prominent role in increasing the skills level and facilitating the desired knowledge transfer in the SME business environment.

Sage Pastel Authorised Training Centres are independent organisations that deliver a range of educational and vocational services based on the Sage Pastel Accounting software range. The Sage Pastel ATC Program is global and implemented through a diverse distribution strategy. It is considered an important resource for training on Sage Pastel Accounting and related Sage Pastel Software.

Become a Sage Pastel ATC if:

- Your company provides training services based on Sage Pastel Accounting and related business products
- You would like to be recognised for your Sage Pastel product knowledge and expertise by displaying the Sage Pastel ATC logo
- You would like to receive unique product benefits, such as prescribed numbers of software training-use licenses, access to training resources and content as well as sales resources for Sage Pastel training offerings
- You would like to receive sales and marketing resources and tools to help you support your customers and grow your business with Sage Pastel training products and solutions
- You would like to receive training customer referrals from Sage Pastel Accounting and participate in a worldwide community of Sage Pastel ATCs

Benefits of being a certified Sage Pastel ATC

Certification: Authorised Training Centres receive Sage Pastel certification emphasising credibility as a certified provider of Sage Pastel training. This indicates to the public that the Training Centre meets the quality and standards of Sage Pastel.

Computer Lab Licensing: As a Sage Pastel Authorised Training Centre, you will be able to take full advantage of the Sage Pastel Educational Software.

Revenue Generating Benefits: Membership in the Sage Pastel ATC programme includes:

- Recognition and logo
- Referral and lead opportunities
- Technical information

Sage Pastel Onsite Training

The Sage Pastel Authorised Trainer programme is global and implemented through a diverse distribution strategy. It is considered an important resource for training on Sage Pastel Accounting and related business products. The Sage Pastel Onsite Programme should be your strategic choice if:

- You provide training services based on Sage Pastel Accounting and related business products
- You would like to be recognised for your Sage Pastel product knowledge and expertise by displaying the Sage Pastel Authorised Trainer logo
- You would like to receive unique product benefits, such as prescribed numbers of software training-use licenses, access to training resources and content as well as sales resources for Sage Pastel training offerings
- You would like to receive sales and marketing resources and tools to help you support your customers and grow your business with Sage Pastel training products and solutions
- You would like to receive training customer referrals from Sage Pastel and participate in a worldwide community of Sage Pastel Authorised Trainers

Receiving Support on training from Sage Pastel Training

While every measure is taken to ensure that your learning experience with Sage Pastel is uplifting and successful, there are times when a little help is needed.

The first port of call, when seeking help, will always be the facilitator or institution hosting your Sage Pastel training. They are best equipped to understand your problem and resolve any outstanding issues.

If the problem is proving more technical and intervention is required, Sage Pastel has a team of product and material specialists ready to assist.

Accessing assistance is easy, telephonic support for simple queries can be accessed by calling **011 304 3670** and, for complicated issues, please send **screenshots and a description to training@pastel.co.za**.

We'd love to hear from you!

Your input into our courseware is very important and we would love to have your comments in writing to training@pastel.co.za, this way, we are able to keep our material fresh, current and relevant, taking the next generation of users to the top in their chosen careers!

Certified School Programmes: Accounting and EMS

Accounting is very much a life skills subject and schools should not only be teaching learners to pass the grade 12 exam, but should also be giving them basic skills to provide them the opportunity to take their place in the economy.

Within the business world it is essential that employees have the necessary computer skills. The present system utilised in the classroom, namely manual accounting, must be enhanced to ensure that learners are provided the relevant skills when completing school.

Taking all of the above into consideration Sage Pastel took the initiative with the idea of “educating the nation” and created the Sage Pastel Certified School Programmes with the main purpose of:

1. Education and development for school learners
2. Improving quality of learning for school learners
3. Providing a life skill to school learners
4. Teacher education and development
5. Teaching aids

Why choose Sage Pastel Accounting?

Sage Pastel Accounting has been providing computerised accounting software to businesses for over 20 years. While other programmes have been developed for school learners, they do not cater for what the learners will be exposed to in the business world. Although they are giving learners an understanding of computerised accounting, it would be of greater value if learners could use the knowledge gained when searching for job opportunities. Sage Pastel Accounting software provides such opportunities. Our school programmes are fully aligned with the Department of Education’s accounting curriculum and the Curriculum & Assessment Policy Statement (CAPS) principles, so that at the end of the course, learners have not only acquired practical skills in accounting but also in using computerised accounting software. Our school programmes are designed as a learning aid to assist and enhance the learning processing within the accounting environment.

Benefits for the school learners and the teachers

Besides the requirements of the Subject Curriculum, there are numerous practical benefits to introducing learners to computerised accounting. A few of these benefits include:

- Introducing experiential learning into education
- Enhancing the education system by aligning education with business needs
- Developing and stimulating educators and learners
- Exposing learners and educators to market related skills
- Improving the learners' employment opportunities
- Development of the workforce

How do the Sage Pastel Certified School Programmes work?

As a school, you have the flexible choice to either add this into your daily curriculum, offer the Certified School Programmes after school hours, Saturday classes or even holiday school. How you build the Certified School Programmes into your curriculum is up to you. There is no restriction from your side as long as you follow the guided allocate time per grade.

Contact us on 011 304 3670 or e-mail training@pastel.co.za for more.

EMS

The EMS programme runs over 2 years, namely Grade 8 (40 hours per year) and 9 (40 hours per year).

Price per learner

Grade 8 and 9: R200.00

Accounting

The Accounting programme runs over 3 years, namely Grade 10 (40 hours per year), 11 (40 hours per year) and 12 (40 hours per year).

Price per learner

Grade 10: R275.00

Grade 11 and 12: R175.00
