

Sage Pastel Partner V18.1.1

History of Changes

Defects:

- #PPA-164 Barcodes can now be selected from the search screen.
- #PPA-197 A line for rounding now displays when printing invoices without the Receipting Module being registered.
- #PPA-205 The message that the Description is blank is now received when Page Down or Page Up is pressed on Edit...Customer Accounts.
- #PPA-236 The Pastel Bank Manager button is no longer disabled when last year transactions are used.
- #PPA-296 The Find By Amount field now allows 12 characters on the Bank Reconciliation screen.
- #PPA-298 The message to enter a user name and password is no longer received every time you open the search screen.
- #PPA-302 When emailing invoices without attachments, the previously emailed attachments are no longer sent.

Enhancements:

- PPA-250 Sage Pay In Product Marketing was updated.
