

## Sage Pastel Partner V18.2.1

### History of Changes

#### Defects:

- #PPA-21 You will no longer receive a status 5 when emailing Pay Now invoices in open batches.
- #PPA-198 When printing statements using enhanced forms all transactions will now display.
- #PPA-203 The logo now appears on all statements when emailing to multiple customers.
- #PPA-297 The enhanced search screen now remains open when scanning an inventory item that does not exist.
- #PPA-309 The enhanced search screen now opens when Yes was clicked on the message to use the enhanced search.
- #PPA-311 Zoom screen no longer opens when a menu item is clicked while the Customer or Supplier field is selected.
- #PPA-418 The screen can now be resized after printing reports to screen.
- #PPA-431 You will no longer experience the situation where no transaction is found for Bank Feeds.
- #PPA-432 Spaces can now be added to the folder name when folders are created for backups.
- #PPA-433 You will no longer receive a run-time error 5 when viewing statements to PDF.
- #PPA-435 The <F10> Receipts button on invoices is no longer hidden when registered for the Receipting module.

#### Enhancements:

- PPA-458 The Vat increase process has been enhanced.
